## Detailed Syllabus Information

Course Name／講義題目	Japan:Society and Ideology
Language of the Course／開講言語	English
Type of Class／授業形態	Lecture Subject
Course Objective／授業の目的と概要	<p>This lecture explores the relationship between modern Japanese social structure and the modern Japanese ideology, which determines the life of ordinary democratic minded people. This lecture is, in other words, designed for those who wish to learn how Japanese people accommodate other members of society and present social structures. Ideology has tended to be thought as a political matter. However, from a social psychological point of view, we need to think about what determines our everyday lives.</p> <p>Through detailed examinations of Japanese history, culture, religion, language, media and up-to-date social issues, students will formulate ideas on how 'ideology' (such as Emperorship) has worked to support modern 'democracy' (such as Symbol Emperor System). Those who wish to discuss 'democracy', 'conservatism', 'egalitarianism', 'liberalism', 'freedom', 'Constitutional monarchy' and modern Japanese history (mainly post-war period) are all welcome.</p>
